## Q1 2023 Operational Highlights

- The number of transactions executed in Q1 2023 grew 75% year-over-year to 10,963, and the total value of completed real estate transactions grew 66% year-over-year to \$4.0 billion.
- Commission revenue per productive agent was \$26,000, a slight decrease from \$29,400 in Q1 2022. These agents on average closed 2.7 transactions during the quarter, compared to 3.0 in Q1 2022.
- Operating expenses per transaction, excluding revenue share, declined 5% year-over-year to \$1,132.
- As of March 31, 2023, Real's headcount efficiency ratio, defined as full-time brokerage employees excluding Real Title and LemonBrew Lending employees, divided by the number of agents on our platform, improved 1 to 114 from 1 to 98 as of Q4 2022 and 1 to 55 as of Q1 2022.

 Implemented the changes to our U.S. fees and additional benefits announced in January, which went into effect for new agents on February 1 and for existing Real agents on April 1. These changes collectively are expected to generate additional net profit of over \$5 million in 2023 with an even more significant full-year effect in 2024.

Subsequent to the end of the quarter, on April 4 we announced Sentry Residential merged its military-focused national brokerage into Real, adding to Real's existing 500-plus military-focused agents. Real plans to leverage our growing presence to launch a Real Military Division, the first of several planned divisions of practice.

On May 3 Real announced it is leveraging GPT to launch Leo, an artificial intelligence-powered assistant that will be integrated with its proprietary transaction management platform to act as a 24/7 concierge to its agents and brokers throughout the U.S. and Canada. A beta version of the technology will be released by the end of Q2 2023.

On May 4 Real announced its expansion into Manitoba, giving the company a presence in four Canadian provinces and 46 states throughout the United States.

Additionally, today we are announcing the launch of Real Signature, a proprietary electronic signature tool built fully inside reZEN that allows agents to create reusable document templates and manage digital signatures throughout the transaction process. This feature will benefit agents by allowing them to save time by templatizing documents for future transactions and save money by avoiding third-party subscription fees. Further, by developing this tool in-house, we will also own all of the data associated with the transaction experience which we can leverage to better automate the transaction process and create better user experiences over the long term.

The Company will discuss the results on a conference call and live webcast today at 11:00 a.m. ET.
